All Turbo Technics turbochargers are built to the very highest standards possible, and thoroughly tested using our own "VSR" high-speed core balancing system. VSR eliminates imbalance and vibration from the rotating assembly at speeds exceeding 250,000 RPM, ensuring 100% quality control, and a long turbocharger life.

Your turbo is in safe hands with Turbo Technics.

PRICES are in GBP. VAT is not included, and will be charged at the current rate.

CARRIAGE - Turbochargers are delivered FREE (next working day) within the UK mainland.

WARRANTY on remanufactured turbos is given for a period of 24 months or 24,000 miles from the date of purchase. Warranty on either new or hybrid turbos is given for a period of 12 months or 12,000 miles from the date of purchase. **Proof and date of the turbo purchase and replacement turbo oil feed pipe will be required before any warranty can proceed.** Full details are supplied with turbochargers.

A SURCHARGE of £75 is applied to your account until the old unit is returned complete. It must be the same part number as the unit supplied, and must not have suffered accident damage.

PAYMENT - Unless a credit account exists, all goods must be paid for in full before dispatch. Payment by all major credit and debit cards is accepted, together with cleared cheques and direct bank transfers.

Supplier Warranty

Turbocharger Warranty

All Turbo Technics remanufactured turbochargers which have been fitted in accordance with the Seller and the manufacturer's recommendations benefit from a warranty which lasts 24 months from the date of supply and covers mileage up to a maximum of 24,000 miles. The Seller is only liable under the Supplier Warranty if the turbo has been fitted and serviced in accordance with the vehicle manufacturers', and Turbo Technics' fitting instructions.

Exchange Turbochargers

The Supplier Warranty on remanufactured turbos is given for a period of 24 months from the date of purchase and covers mileage up to a maximum of 24,000 miles.

The Supplier Warranty on either new or hybrid turbos is given for a period of 12 months and covers mileage up to a maximum of 12,000 miles from the date of purchase.

Proof and date of purchase of turbocharger and replacement turbo oil feed pipe will be required before any claim can be made under the Supplier Warranty.

The Supplier Warranty is limited to the repair or replacement of the turbocharger. Particular attention should be paid to the turbocharger's oil supply and ensuring that a high degree of cleanliness is maintained while fitting the turbocharger. The Seller shall not be liable for any repair or replacement if a turbocharger fails because of insufficient cleanliness during the fitting process.

No liability will be accepted if the turbocharger boost setting is outside the figures recommended by the Seller or the original vehicle manufacturer. The boost setting must always be checked after fitment to comply with this warranty.

Proof, in the form of receipts, may be required verifying that routine servicing has been carried out as per the manufacturer's recommendations since the turbocharger was fitted. Special emphasis is placed upon oil change intervals, oil filter replacement and engine oil quality. In this respect, Turbo Technics recommends that you use a grade of oil approved and recommended by your vehicle manufacturer, as documented in the handbook.

If you wish to make a claim under the Supplier Warranty you must first contact the distributor who originally supplied the turbocharger. The Supplier will carry out a thorough examination of all components before a decision is made as to the validity of a warranty claim and if the Supplier accepts liability under the Supplier Warranty the distributor will contact you.

Repaired Turbochargers

Where repair work is carried out on a customer's own turbocharger, the Supplier Warranty is limited to the parts supplied and the workmanship involved in the repair. This warranty shall not exceed 12 months and applies only for the first 12,000 miles.

The obligation of Turbo Technics under this Supplier Warranty is the entire liability of Turbo Technics Ltd and is subject to the limitations of liability set out in Turbo Technics Terms and Conditions which are set out on the back of this warranty.

This Supplier Warranty is in addition to any statutory rights which you may be entitled to exercise as a consumer.
